At 3:45 p.m. Adam Zehr reviewed his attached report.

Towers in Harrisburg, Lowville and Barnes Corners will soon be activated for broadband service for those who have had either none or poor service to-date.

Aerosmith Company representatives continue to assist with the State Environmental Quality Review Assessment (SEQRA) for new towers.

Adam distributed a departmental listing of all PC’s to be replaced or updated with Windows 10. Windows 7 support will cease in 2020. He requests the amount of $23,094.66 be appropriated/transfered from the Capital Data Processing account to cover the cost. Legislator LaChausse made a motion to recommend the action to the Board, seconded by Legislator Moroughan and carried.

Adam is optimistic to receive at least a portion of his requested grant application of $31,540 from the Department of Homeland Security to support identified cyber security upgrades.
