- A. **Classes of License:** Each cannabis establishments shall have its own class of license. The four license classes are Cannabis Cultivation License, Cannabis Dispensary License, Cannabis Product Manufacturing License, and Cannabis Testing License.
- B. **License Required:** It shall be unlawful for any person or entity to create or operate a cannabis establishment in the City without first having obtained a license from the City and a registration certificate from the State for each cannabis establishment to be operated in connection with such business. Such license and certification shall be always kept current, and the failure to maintain a current license and certification shall constitute a violation of this section.
- C. **Multiple Licenses:** A person or entity who intends to conduct activities which would meet the definition of multiple cannabis establishments must, prior to operating such cannabis establishments, obtain a license for each class of cannabis establishment. A person or entity may hold more than one class of license except when otherwise prohibited by this chapter.
- D. **License Location:** Each license shall authorize a single cannabis establishment to operate at a single location. Licenses of different classes may overlap except when otherwise prohibited by this chapter.
- E. **License Duration:** Each license issued is effective from January 1 through December 31, regardless of the time of year such license is approved. Each license expires at 11:59:59 P.M. on December 31 unless, prior to the expiration, the City Council has approved, or conditionally approved, the renewal of such license for the following calendar year.

39-1-4: Number of Licenses Restricted:

- A. The number of cannabis establishment licenses shall be restricted by license class. For Cannabis Dispensary Licenses, the number of licenses is limited to two. The City may hold both Cannabis Dispensary Licenses and operate such dispensaries in any manner provided by state law. For all other cannabis establishment licenses, the number of licenses is unlimited. The numerical limits for each class of cannabis establishment may be altered at any time by resolution of the City Council.
- B. In the event the numerical cap is lowered to an amount less than the number of the existing licenses in that class, no existing licensee shall be prevented from continuing operation during the license term, requesting modifications to application information, from renewing such license for consecutive, subsequent years, or from transferring such license, on the basis that the numerical limit would otherwise prohibit the issuance of a license to a new applicant. However, this exception shall not prevent a license from being suspended or revoked, nor shall it prevent a license from not being renewed or a transfer approved, based upon grounds other than the numerical limit being exceeded.

39-1-5: Application Process:

- A. Application for License: An applicant must submit a signed application, using the City's online portal, to the Planning and Permitting Office using the form established by the City. Such application must include:

1. For license classes where the Council has established a numerical cap, applications shall be accepted by the special procedures provided in this section.
2. These special procedures shall apply whenever a license becomes available in a capped license class.
3. When such availability occurs, the City shall publish an invitation for applications on the City's website stating the deadline to apply, and the location applications may be submitted. No application for a capped license class will be accepted prior to publication of the invitation nor after the deadline established in the invitation.

The City Council will approve or deny applications in the established order but may review all applications before deciding on any individual application. The City Council will approve or deny the applications in order until all applications have been acted on or the numerical cap has been reached. If the numerical cap has been reached and there are still applications which have not been acted on, such undecided applications shall be deemed rejected.
8. If no applications are received following an invitation for applications, or if the numerical cap is not reached pursuant to an invitation for applications, these special rules shall no longer apply and applications may be received, processed, and considered on a first come, first served basis beginning at open of business the day following the City Council meeting at which the last application was acted upon pursuant to the invitation for applications. Such applications must be delivered in writing to the finance office no earlier than the time specified above and applications received before such time are deemed rejected.
9. If the numerical cap is then reached while using the first come, first served system, and a license subsequently lapses making a license available, these special procedures shall apply to issuing the license.
