The grant funding announcement and the report required to be submitted by the board were presented. Discussion: • The potential recipients were clarified by the statutory definition, which included the need for a law enforcement entity to have a defined crime prevention fund. • The need for missed reports made to the county by the board was discussed. It was determined that a cumulative report should be made to the county board and legislative entities wholly or partly in the county, due to the board only recently forming. • The eligibility of applicants was added to the funding announcement. The announcement will be placed in the Chronicle, on the county website and emailed to each police/sheriff agency in the county. • It was determined that the applications for this round of funding will be the close of business on April 8, 2022.
