6 <u>Presentation of Opioid Funded National Conference attendance:</u>	
Sheriff Peterson, District Attorney Leigh, Judge Allen, and M. Peterson shared a PowerPoint presentation	on
the All Rise Conference. The trainings were role specific for those who attended, and each participant	
brought back knowledge to make the program better. The traditional approach to crime and punishment	
for addiction does not work, which is why treatment court is so valuable. Addiction is a disease and should be treated as such and to be a record to be broad treatment.	ia
be treated as such, not as a crime. They shared treatment court statistics and that they need to be brave	
and willing to try new things to see what works, and what works for one person may not work for another person. Pauli inquired about the phases, and M. Peterson shared the timeframe and goals for each phase	
that participants need to meet to move on, as well as participants needing to remain sober through each	
phase or they go back to Phase One. O'Brien asked if there will be follow-up conferences. Allen shared the	
Wisconsin puts on an annual conference the team attends. Cockeram suggested the team sit down with	
Dodgeville Chronicle to do an article, and Sheriff Peterson shared it was one of the team's goals.	
7 Presentation of ADRC/Social Services Annual report:	
Slaney handed out the ADRC/Social Services Annual Report to committee members and presented it. He	
invited committee members to review and contact him with any questions. There were no dramatic	

	changes from 2022 to 2023 except for the SUN Program and In-Kind, as 2023 was the first time we received
	the contract and subcontracted with the SUN Program.
8	ADRC Update:
	Valerie Hiltbrand, ADRC Manager, provided a report and Slaney presented. Rolfsmeyer is happy to see all
	the positions are filled within the ADRC. Slaney shared there is a vacancy with the Department Assistant
	position, but they are fully staffed on the programmatic side. O'Brien inquired whether the Scam
	Prevention materials can be made available online. Paull shared that elderly people are afraid to click on
	links and go to websites due to scams.
9	Unified Community Services Update:
	Knapp provided a report and presented. She highlighted priority areas: staffing and retention, streamlining
	workflow with clearer job descriptions, Carlson Dettman classification and compensation study, Tyler Munis
	accounting software, and expanding office space. Rolfsmeyer inquired about Carlson Dettman, and Knapp
	shared the background information. Nankee liked the presentation to Cassville High School, and Rolfsmeyer
	asked if it could happen in other schools. Knapp said yes, and there are seven schools between both
	counties that have agreements to distribute Narcan. More partnering and prevention is happening with
	local schools. Paull commended the Unified Community Services staff.
10	Social Services Update:
	Slaney provided a report and presented. Rolfsmeyer inquired about the Energy Assistance program desk
	review and whether Slaney was able to share his concerns. Slaney said he has shared his concerns with the
	Department of Administration, but there was no face-to-face contact with the agency during this desk
	audit. Paull asked if grandparents who are primary caregivers are considered out-of-home. Slaney shared
	that Kinship Care can be paid to grandparent caregivers and the definition has been expanded to include
	like-kin, as it's important to keep children with their families.
