Discussion and update on the status of the DNR grant funding for the projects along the Cheese Country Trail.

Tom reported that he is still working with FEMA to get all of the reimbursement from the July 2017 flood damage. Tom is also working on applications for ATV/UTV and Snowmobile grants for the upcoming 2019-2020 season along with trying to secure more funding for the flood damage from both the October 2018 and recent March 14, 2019 events. According to Annie from the DNR, in order to be eligible for additional funding to rehabilitate following storm damage, all of the grant money needs to be used up, including snowmobile, ATV/UTV's. Tom assured the committee that the funds have been exhausted and therefore he will include a request for additional grant money when he submits the next funding applications.

Discussion and update on general maintenance/signage or encroachment issues along the Cheese Country Trail along with Trail Maintenance Update – Local ATV & Snowmobile Clubs

The main topic of discussion was the extensive flood damage on the Cheese Country Trail. As of this meeting the trail is closed indefinitely until repairs can be made. Tom and Lee have both been assessing the damages, taking photos and documenting what needs to be repaired to get the trail open as quickly as possible. Tom will utilize some of the County Highway Dept. resources to regrade portions and Lee will also work on sections to try to recover from this latest flood event.

This past season was one of the best in recent memory for snowmobile use. The Clubs spent most of their funding on trail grooming and the trail saw a large number of riders in the months of January and February.

Lee said that he is still seeing Amish horse and buggy's using the trail and that they ignore the signs which prohibits them from using a buggy on the trail. He has asked the Sheriff to speak to them.

Legislative update:

Rob McConnell was present and gave the committee an update on some pending legislation that could affect the trail.

The DNR is considering updating their open intoxicant ordinance, that would then be similar to our own County resolutions which prohibit them on an ATV/UTV. There is some discussion ongoing regarding the allowable speed limits on road routes along with discussions involving the use of radial tires on UTVs.

Rob also mentioned that the Off road council would be considering storm damage applications at their next meeting and that he thought the Council had surplus money for storm damage rehabilitation. Tom will stay in contact with Rob to see if we can qualify for some of this funding.

Trail Coordinators Salary and duties:

Tom reported that the amount of work that has been generated from the flood events has taken an enormous amount of extra time on his part to try and find funding to pay for the repairs along with evaluating the damages. The salary that he receives, (\$4,000 annually) is not enough compensation to justify the effort it takes and couple that with the taxes he has to pay (at least 33%) since he is paid as a contractor who is responsible for 15.3% FICA taxes. Tom would either like to be compensated more or if the salary remains the same, he is willing to let someone else take over his position. Along with that, Deb Krahenbuhl is retiring in May from the County Finance Dept. but is willing to try to work out something to continue as a co-coordinator for the Tri County Trail Commission. There was some discussion regarding increasing Tom's compensation and adding compensation to Deb's position. No action was taken and this will be a future agenda item.
