4	Report from committee members and an opportunity for members of the audience to address the Committee. No action will be taken. • Erin Hirn introduced herself as the new City Administrator for the City of Mineral Point. She said farmers within the extraterritorial zoning jurisdiction have been informed they are not eligible for Farmland Preservation Program tax credits this year and she would like to work with the County to do what is necessary to make them eligible. Supervisor Peterson suggested the City consider reducing the size of the ETZ area. • Steve Gevelinger said he is one of the farmers within the ETZ and wants to know why he will not get tax credits this year. Director Godfrey explained the need for the City to have its Farmland Preservation Zoning Map within the ETZ certified by DATCP but there are issues with its boundaries not matching those of the ETZ. He said once this is resolved, the County will need to revise its Comprehensive Plan which includes the Farmland Preservation Plan to include the ETZ area as mapped Farmland Preservation Area. He added the noticing requirements and process will take beyond the end of this year. • Brenda Steffes said she has 120 acres within the ETZ and will be losing the \$7.50 per acre tax credit. She said she spoke with the City 1 ½ years ago and was told there is a DATCP extension and all is being taken care of. She somebody dropped the ball and farmers are paying for it. She said Mineral Point needs to take action. She said their land was thrown into the ETZ without any choice and the City should get rid of it.	

	• Curt Peterson said the landowners need to talk with the Town and City as this has been an issue for years. He said this may be the time to rescind the ETZ. • Joyce Berning said she has land in the ETZ and we have to move beyond blame to a solution. She said she doesn't understand why this is so difficult to resolve and farmers are paying for conservation practices but not getting the tax credits.
