- a. **Update on informational signs along the trail:** Lee reported that he was still waiting to get all of the materials in to build these signs. Donna Flannery will check with Ray Voltz from South Wayne regarding his offer to build one in South Wayne.
- b. **Trail Usage and access during the Main St. construction in Darlington:**

Tom and Fuzzy North have been working with project managers Barry Larson and Ken Plowman to make sure ATV traffic is getting through the construction ok. It seems to be working good.

Lee reported that he has done some grading on the trail and will be doing his first round of mowing soon. He spent some of the remaining snowmobile funds to add gravel between Calamine and Darlington. He said the trail is getting a lot of use and that the campgrounds are nearly full every weekend. He also reported that there was some interest in seeing the age limit for road route operation of a UTV lowered to 14. There was some discussion and while it doesn't appear this committee is in favor of it, the road routes are a separate issue and will be on a future agenda for Lafayette County Highway Safety committee. Craig reported that Green County's portion of the trail is being used a lot and that with the addition of 108 loads of gravel and grading, the trail is in good shape.

Donna Flannery reported that Wayne Township has opened all of their roads to ATV/UTV travel.

Tom reported that he had received complaints about some signs that were put up along the trail advertising local businesses. No one granted permission for these signs and there is a policy and fee schedule in place for the placement of advertising. Tom and Lee will contact the businesses and have them removed. Tom also received a complaint about ATV's tearing up the side of the trail near Walnut road and a request for some signage or barricades to prevent this. Tom and Lee will check this out and report back next month.
