Anne,

I take back what I said earlier after looking thru all of the attachments. Here is a screen shot of our main that runs through that property. I will have my service tech go out tomorrow and get some measurements. Please let me know if you have any questions or concerns.

Thank you,

Anne,

We need to make sure the anchors for this tower do not interfere with our lines.

Attached is the DNS issued by the City of Othello for a 100' cellular tower.  
This DNS was issued under WAC 197-11-355, Optional DNS; therefore the Environmental Checklist is not being circulated again. The Environmental Checklist was emailed June 24 with the Notice of Application on this project.  
Let me know if you have any questions.
