

May 20, 2026

Dear Newtown Resident,

I am writing to you on behalf of Cablevision Lightpath LLC (“Lightpath”). Lightpath is a telecommunications and fiber company doing business in the U.S. Our wholly owned subsidiary, United Federal Data of Pennsylvania, LLC is a registered public utility in the Commonwealth of PA. Lightpath builds, operates, and maintains fiber infrastructure and provides telecommunications services to a wide variety of commercial customers including schools, municipal and government entities, and other businesses.

Lightpath is currently expanding its network in Pennsylvania. Our expansion includes Newtown specifically so that we can interconnect with other telecommunications service providers in the area. These connections are to improve our network for all of customers. In Newtown, our network will be installed along Washington Ave, State Street, and one block of Center Street.

We are holding an information session about this project at the American Legion at 41 Linden Ave, Newtown, PA 18940 on Thursday, May 28 at 6:00 P.M. to review our plans and address questions from residents about the project.

You can find more information about the project at the webpage—
<https://click.lpmarketing.lightpathfiber.com/NewtownPA>

Please reach out to me if you have questions.

Sincerely,

Laura K. Spining
