3. COMMUNITY CENTER PARKING LOT RE-ROUTING IDEAS TO IMPROVE SAFETY. (PLAYGROUND ENTRANCE SAFETY? CONTRA-FLOW BIKE LANE?

Chief Kiernan share the rough plans to re-route traffic flow at the Community Center with the hope of making it safer. The idea of including a contra-flow bike lane on the short section of the one-way

drive passing by the lower fields up to the ball fields was promoted as part of this change. This would provide a safer return route for people on bikes.
