FY26 budget goals include retaining staff in core capacities, maintaining contingency reserve for general fund and utility fund at \$150,000 each, adjust fee schedule, increase property tax, adjust employee insurance benefits, right-size city events, reduce travel without reducing training, and outsource operations where possible, create a 5 to 10-year solid plan.

### **B.4. Debt Service**

Finance Director Stanley Muli reported that the city issued \$30 million in general and utility bonds in 2022 and \$40 million in 2024. Instruments available to meet capital improvement needs include: GO bonds require voter approval and are backed by ad valorem taxes; Tax Notes have a 7 year maturity and are meant for assets with a shorter life; Revenue Bonds have a higher interest rate, are more difficult to issue and cannot be paid by taxes; and Certificates of Obligation which are backed by tax revenues and can be used to fund renovation of certain public works projects.

## **AGENDA SUMMARY FORM**

To: City Commission

**Subject:** Discuss and consider approval of a Resolution determining the costs of certain

authorized improvements to be financed by the Prairieview Public Improvement District; approving a Preliminary Service Plan And Assessment Plan, including proposed assessment roll; calling a regular meeting and noticing a public hearing for August 19, 2025 to consider an Ordinance levying assessments on property located within the Prairieview Public Improvement District; directing the filing of the proposed assessment roll with the City Secretary to make available for public inspection; directing city staff to publish and mail notice of said public hearing; and

resolving other matters incident and related thereto.

Meeting: ENNIS CITY COMMISSION - 05 Aug 2025

**Department:** City Secretary

**Staff Contact:** Angie Wade, City Secretary

### **BACKGROUND INFORMATION:**

The Prairieview Public Improvement District (PID) was created by the City Commission on June 1, 2021 (Resolution No. 21-0601-12) to support infrastructure development across approximately 236.5 acres.

The PID is being developed in phases. On May 7, 2024, the Commission adopted Ordinance No. 24-0507-F1, approving the original Service and Assessment Plan (SAP) and levying assessments for Improvement Area #1, covering 88.854 acres.

Improvement Area #2 consists of approximately 118.744 acres and represents the next phase in public infrastructure development. The proposed action accepts the Preliminary Amended and Restated SAP (SAP Resolution Exhibit A) to reflect updated costs and assessment methodology for this area and prepares the legal groundwork for levying assessments.

### FINANCIAL IMPACT:

As shown in the Preliminary Amended and Restated SAP, the total cost of Authorized Improvements in Improvement Area #2 is \$27,033,598, with \$11,896,000 proposed to be recovered through PID assessments.

Per Section 5.03 of the Development Agreement (p. 13), the Developer is responsible for the full cost of infrastructure upfront. PID assessments will reimburse the Developer either directly or through a future bond issuance, subject to separate approval by the Commission.

The SAP outlines the structure of annual installments, collection timelines, and obligations of the Administrator and Finance staff. There is no financial liability to the City associated with the PID, and no pledge of City tax revenue is involved.

### **POLICY IMPLICATIONS:**

This step is part of the process required for establishing and administering the Public Improvement District the City Commission approved in conjunction with the Prairie View Development Agreement. PIDs are a legally compliant tool for constructing public infrastructure necessary to serve growing areas.

The resolution formally calls a public hearing for August 19, 2025, and instructs staff to issue all required notices.

### **RECOMMENDATION:**

Staff recommends approval of the attached Resolution Determining Costs for Improvement Area #2 of the Prairieview PID, which will:

- · Accept the Preliminary Amended and Restated SAP;
- · Determine the total costs for Authorized Improvements to be assessed;
- · Call a public hearing for August 19, 2025;
- · Direct City staff and consultants to issue public and mailed notices as required by law.
- · This action is consistent with the Development Agreement.

## INTRODUCTION

Capitalized terms used in this 2025 A&R Service and Assessment Plan shall have the meanings given to them in **Section I** unless otherwise defined in this 2025 A&R Service and Assessment Plan or unless the context in which a term is used clearly requires a different meaning. Unless otherwise defined, a reference to a "Section", "Exhibit", or an "Appendix" shall be a reference to a Section of this 2025 A&R Service and Assessment Plan or an Exhibit or Appendix attached to and made a part of this 2025 A&R Service and Assessment Plan for all purposes.

On June 1, 2021, the City Commission passed and approved Resolution No. 21-0601-E2 authorizing the establishment of the District in accordance with the PID Act, which authorization was effective upon publication as required by the PID Act. The purpose of the District is to finance the Actual Costs of Authorized Improvements that confer a special benefit on approximately 236.482 acres located within the corporate limits of the City, as described by the legal description on **Exhibit K-1** and depicted on **Exhibit A-1**.

On May 7, 2024, the City Commission approved the 2024 Service and Assessment Plan and levied the Improvement Area #1 Assessments to finance the Improvement Area #1 Projects to be constructed for the benefit of the Improvement Area #1 Assessed Property within the District by approving the 2024 Assessment Ordinance. The 2024 Assessment Ordinance (1) identified the Improvement Area #1 Authorized Improvements to be provided by the District; (2) identified the costs of the Improvement Area #1 Authorized Improvements; (3) identified the indebtedness to be incurred for the Improvement Area #1 Authorized Improvements, and the manner of assessing the Improvement Area #1 Assessed Property for the costs of the Improvement Area #1 Authorized Improvement Area #1 Assessments for the Improvement Area #1 Assessments for the Improvement Area #1 Assessment Roll.

This 2025 A&R Service and Assessment Plan serves to amend and restate the 2024 Service and Assessment Plan in its entirety for the purposes of (1) updating the Improvement Area #1 Assessment Roll; (2) identifying the Improvement Area #2 Authorized Improvements to be provided by the District; (3) identifying the costs of the Improvement Area #2 Authorized Improvements; (4) identifying the indebtedness to be incurred for the Improvement Area #2 Authorized Improvements, and the manner of assessing the Improvement Area #2 Assessed Property for the costs of the Improvement Area #2 Authorized Improvements; (5) levying the Improvement Area #2 Assessments for the Improvement Area #2 Assessed Property; and (6) approving the Improvement Area #2 Assessment Roll.

The PID Act requires a Service Plan must (i) cover a period of at least five years; (ii) define the annual indebtedness and projected cost of the Authorized Improvements; and (iii) include a copy of the notice form required by Section 5.014 of the Texas Property Code, as amended. The Service Plan is contained in **Section IV** and the notice form is attached as **Appendix B**.

The PID Act requires that the Service Plan include an Assessment Plan that assesses the Actual Costs of the Authorized Improvements against the Assessed Property within the District based on the special benefits conferred on such property by the Authorized Improvements. The Assessment Plan is contained in **Section V**.

The PID Act requires an Assessment Roll that states the Assessment against each Parcel as determined by the method chosen by the City Commission. The Assessment against each Parcel of Assessed Property must be sufficient to pay the share of the Actual Costs of the Authorized Improvements apportioned to such Parcel and cannot exceed the special benefit conferred on the Parcel by such Authorized Improvements. The Improvement Area #1 Assessment Roll is included as **Exhibit F-1** and the Improvement Area #2 Assessment Roll is included as **Exhibit G-1**. The Improvement Area #2 Assessment Roll by block and lot is included as **Exhibit G-2** for illustrative purposes.

## **SECTION V: ASSESSMENT PLAN**

The PID Act allows the City Commission to apportion the costs of the Authorized Improvements to the Assessed Property and Apportioned Property based on the special benefit received from the Authorized Improvements. The PID Act provides that such costs may be apportioned: (1) equally per front foot or square foot; (2) according to the value of property as determined by the City Commission, with or without regard to improvements constructed on the property; or (3) in any other manner approved by the City Commission that results in imposing equal shares of such costs on property similarly benefited. The PID Act further provides that the City Commission may establish by ordinance or order reasonable classifications and formulas for the apportionment of the cost between the City and the area to be assessed and the methods of assessing the special benefits for various classes of improvements.

This section of this 2025 A&R Service and Assessment Plan describes the special benefit received by each Parcel within the District as a result of the Authorized Improvements and provides the basis and justification for the determination that this special benefit equals or exceeds the amount of the Assessments to be levied on the Assessed Property for such Authorized Improvements.

The determination by the City Commission of the Assessment methodologies set forth below is the result of the discretionary exercise by the City Commission of its legislative authority and governmental powers and is conclusive and binding on the Developer, all current owners, and all future owners and developers of the Assessed Property.

## A. Assessment Methodology

The City Commission, acting in its legislative capacity and based on information provided by the Developer and their engineer and reviewed by the City staff and by third-party consultants retained by the City, has determined that the costs related to the Authorized Improvements shall be allocated and/or apportioned as follows:

The costs of the Major Improvements shall be allocated to each Parcel in the District pro rata based on the Estimated Buildout Value of each Assessed Property to the Estimated Buildout Value of the District. By the adoption of the 2024 Assessment Ordinance, a portion of the costs of the Major Improvements, excluding the Liska & Lakeview Additional Paving costs were allocated to Improvement Area #1 Assessed Property. The costs of the Liska & Lakeview Additional Paving portion of the Major Improvements are being allocated among the property within the District based on the estimated value of each lot with fully constructed buildings as of the date of the adoption of the 2024 Assessment Ordinance, as described in Exhibit B-2.

- By the adoption of the 2025 Assessment Ordinance, the remainder of such Major Improvements costs, after the allocation to Improvement Area #1, shall be allocated 80.32% to the Improvement Area #2 Assessed Property, and 19.68% apportioned to the Remainder Area Apportioned Property based on the proportionate share of the Estimated Buildout Value of each Assessed Property and Apportioned Property relative to the total Estimated Buildout Value of Improvement Area #2 and the Remainder Area, as shown on Exhibit B-2. Currently, the Improvement Area #1 Assessed Property is allocated 35.58% of the total Major Improvements costs, the Improvement Area #2 Assessed Property is allocated 51.74% of the total Major Improvements costs, and the Remainder Area Apportioned Property is apportioned 12.68% of the total Major Improvements costs. See Exhibit B-1 for the allocation and apportionment of the total Major Improvements costs to Improvement Area #1, Improvement Area #2, and the Remainder Area.
- At the time the City Commission approved the 2024 Assessment Ordinance, the costs of the Improvement Area #1 Authorized Improvements were allocated to each Parcel of Improvement Area #1 Assessed Property based on the ratio of the Estimated Buildout Value of each Parcel designated as Improvement Area #1 Assessed Property to the Estimated Buildout Value of all Improvement Area #1 Assessed Property.
- By the adoption of the 2025 Assessment Ordinance, the costs of the Improvement Area #2 Authorized Improvements are allocated to each Parcel of Improvement Area #2 Assessed Property based on the ratio of the Estimated Buildout Value of each Parcel designated as Improvement Area #2 Assessed Property to the Estimated Buildout Value of all Improvement Area #2 Assessed Property.

#### **B.** Assessments

At the time the City Commission approved the 2024 Assessment Ordinance, the Improvement Area #1 Assessment was levied on the Improvement Area #1 Initial Parcel and, since subdivided, is currently outstanding in the amount shown on the Improvement Area #1 Assessment Roll attached hereto as **Exhibit F-1**. The Improvement Area #1 Annual Installments are shown on **Exhibit F-2** and are subject to revisions made in any Annual Service Plan Update.

By the adoption of the 2025 Assessment Ordinance, the Improvement Area #2 Assessment shall be levied on the Improvement Area #2 Assessed Property in the amount shown on the Improvement Area #2 Assessment Roll attached hereto as **Exhibit G-1**. The projected Improvement Area #2 Annual Installments are shown on **Exhibit G-3** and are subject to revisions made in any Annual Service Plan Update. Upon division or subdivision of an Improvement Area #2 Remainder Parcel, the Improvement Area #2 Assessment will be reallocated pursuant to **Section VI**.

The Maximum Assessment for each Lot Type is shown on **Exhibit E**. In no case will the Assessment for Lot Types classified as Lot Type 1, Lot Type 2, Lot Type 3, Lot Type 4, Lot Type 5, and Lot Type 6, respectively, exceed the corresponding Maximum Assessment for each Lot Type classification.

DRP BOOKBINDER MULTISTATE LLC ratified, accepted, agreed to, and approved: (1) the determinations and findings by the City Commission as to the special benefits described herein; (2) this 2025 A&R Service and Assessment Plan; and (3) the Remainder Area Apportionment of Costs.
- The above costs include only the costs of Remainder Area Projects and do not include any costs of public infrastructure benefiting only the Remainder Area, which may be identified in a future update to this 2025 A&R Service and Assessment Plan.

#### **D.** Annual Collection Costs

The Annual Collection Costs shall be paid for annually by the owner of each Parcel pro rata based on the ratio of the amount of outstanding Assessment remaining on the Parcel to the total outstanding Assessment. The Annual Collection Costs shall be collected as part of and in the same manner as Annual Installments in the amounts shown on the Assessment Roll, which may be revised based on Actual Costs incurred in Annual Service Plan Updates.

#### E. Interest

The interest on the Improvement Area #1 Assessment and Improvement Area #2 Assessment securing the Improvement Area #1 Reimbursement Obligation and Improvement Area #2

Reimbursement Obligation shall be collected at the rates in the respective Assessment Ordinance as part of the respective Improvement Area #1 Annual Installment or Improvement Area #2 Annual Installment, and will not include Additional Interest unless and until PID Bonds secured by the Improvement Area #1 Assessment or Improvement Area #2 Assessment are issued. If and when such PID Bonds are issued, the rate calculated will match the rate on such series of PID Bonds, plus Additional Interest, but in no instance will the Improvement Area #1 Assessment or Improvement Area #2 Assessment on any Assessed Property be increased.

#### F. Additional Interest

The interest rate on Assessments securing each respective series of PID Bonds may exceed the interest rate on each respective series of PID Bonds by the Additional Interest Rate. To the extent required by any Indenture, Additional Interest shall be collected as part of each Annual Installment related to a series of PID Bonds and shall be deposited pursuant to the applicable Indenture.

### **SECTION VI: TERMS OF THE ASSESSMENTS**

Any reallocation of Assessments as described in this Section VI shall be considered an administrative action of the City and will not be subject to the notice or public hearing requirements under the PID Act.

#### A. Reallocation of Assessments

1. Upon Division Prior to Recording of Subdivision Plat

Upon the division of any Assessed Property (without the recording of a subdivision plat), the Administrator shall reallocate the Assessment for the Assessed Property prior to the division among the newly divided Assessed Properties according to the following formula:

$$A = B \times (C \div D)$$

Where the terms have the following meanings:

A = the Assessment for the newly divided Assessed Property

B = the Assessment for the Assessed Property prior to division

C = the Estimated Buildout Value of the newly divided Assessed Property

D = the sum of the Estimated Buildout Value for all of the newly divided Assessed Properties

The calculation of the Assessment of an Assessed Property shall be performed by the Administrator and shall be based on the Estimated Buildout Value of that Assessed Property, as provided by the Developer, relying on information from homebuilders,

market studies, appraisals, official public records of the County, and any other relevant information regarding the Assessed Property, as provided by the Developer. The Estimated Buildout Value for Lot Type 1, Lot Type 2, Lot Type 3, Lot Type 4, Lot Type 5, and Lot Type 6 are shown on **Exhibit E** and will not change in future Annual Service Plan Updates. The calculation as confirmed by the City Commission shall be conclusive and binding.

The sum of the Assessments for all newly divided Assessed Properties shall equal the Assessment for the Assessed Property prior to subdivision. The calculation shall be made separately for each newly divided Assessed Property. The reallocation of an Assessment for an Assessed Property that is a homestead under Texas law may not exceed the Assessment prior to the reallocation. Any reallocation pursuant to this section shall be reflected in the Annual Service Plan Update immediately following such reallocation.

## 2. Upon Subdivision by a Recorded Subdivision Plat

Upon the subdivision of any Assessed Property based on a recorded subdivision plat, the Administrator shall reallocate the Assessment for the Assessed Property prior to the subdivision among the new subdivided Lots based on Estimated Buildout Value according to the following formula:

$$A = [B \times (C \div D)]/E$$

Where the terms have the following meanings:

A = the Assessment for the newly subdivided Lot

B = the Assessment for the Parcel prior to subdivision

C = the sum of the Estimated Buildout Value of all newly subdivided Lots with the same Lot Type

D = the sum of the Estimated Buildout Value for all of the newly subdivided Lots excluding Non-Benefited Property

E= the number of newly subdivided Lots with the same Lot Type

Prior to the recording of a subdivision plat, the Developer shall provide the City an Estimated Buildout Value as of the date of the recorded subdivision plat for each Lot created by the recorded subdivision plat. The calculation of the Assessment for a Lot shall be performed by the Administrator and confirmed by the City Commission based on Estimated Buildout Value information provided by the Developer, homebuilders, third party consultants, and/or the official public records of the County regarding the Lot. The Estimated Buildout Value for Lot Type 1, Lot Type 2, Lot Type 3, Lot Type 4, Lot Type 5, and Lot Type 6 are shown on **Exhibit E** and will not change in future Annual Service Plan

Updates. The calculation as confirmed by the City Commission shall be conclusive and binding.

The sum of the Assessments for all newly subdivided Lots shall not exceed the Assessment for the portion of the Assessed Property subdivided prior to subdivision. The calculation shall be made separately for each newly subdivided Assessed Property. The reallocation of an Assessment for an Assessed Property that is a homestead under Texas law may not exceed the Assessment prior to the reallocation. Any reallocation pursuant to this section shall be reflected in the Annual Service Plan Update immediately following such reallocation.

## 3. Upon Consolidation

If two or more Lots or Parcels are consolidated into a single Lot or Parcel, the Administrator shall allocate the Assessments against the Lots or Parcels before the consolidation to the consolidated Lot or Parcel, which allocation shall be approved by the City Commission in the next Annual Service Plan Update immediately following such consolidation. The Assessment for any resulting Lot may not exceed the Maximum Assessment for the applicable Lot Type and compliance may require a mandatory Prepayment of Assessments pursuant to **Section VI.C.** 

## **B.** Mandatory Prepayment of Assessments

If an Assessed Property or a portion thereof is conveyed to a party that is exempt from payment of the Assessment under applicable law, or the owner causes a Lot, Parcel or portion thereof to become Non-Benefited Property, the owner of such Lot, Parcel or portion thereof shall pay to the City, or cause to be paid to the City, the full amount of the Assessment, plus all Prepayment Costs and Delinquent Collection Costs for such Assessed Property, prior to any such conveyance or act, and no such conveyance shall be effective until the City receives such payment. Following payment of the foregoing costs in full, the City shall provide the owner with a recordable "Notice of Termination of Assessment," a form of which is attached hereto as **Exhibit I.** 

## C. True-Up of Assessments if Maximum Assessment Exceeded at Plat

Prior to the City approving a final subdivision plat, the Administrator will certify that such plat will not result in the Assessment per Lot for any Lot Type to exceed the Maximum Assessment. If the Administrator determines that the resulting Assessment per Lot for any Lot Type will exceed the Maximum Assessment for that Lot Type, then (1) the Assessment applicable to each Lot Type shall each be reduced to the Maximum Assessment, and (2) the person or entity filing the plat shall pay to the City, or cause to be paid to the City, the amount the Assessment was reduced, plus Prepayment Costs and Delinquent Collection Costs, if any, prior to the City approving the final plat. The City's approval of a plat without payment of such amounts does not eliminate the

obligation of the person or entity filing the plat to pay such amounts. At no time shall the aggregate Assessments for any Lot exceed the Maximum Assessment.

#### D. Reduction of Assessments

If as a result of cost savings or the failure to construct all or a portion of an Authorized Improvement the Actual Costs of any Authorized Improvements are less than the Assessments levied to pay for such Authorized Improvements, then (i) in the event PID Bonds have not been issued for the purpose of financing Authorized Improvements affected by such reduction in Actual Costs, the City Commission shall reduce each applicable Assessment on a pro rata basis such that the sum of the resulting reduced Assessments for all Assessed Property equals the reduced Actual Costs that were expended, or (ii) in the event that a related series of PID Bonds have been issued for the purpose of financing Authorized Improvements affected by such reduction in Actual Costs, the Trustee shall apply amounts on deposit in the applicable account of the project fund created under the Indenture relating to such series of PID Bonds that are not expected to be used for the purposes of the project fund as directed by the City pursuant to the terms of such Indenture. Such excess PID Bond proceeds may be used for any purpose authorized by such Indenture. The Assessments shall never be reduced to an amount less than the amount required to pay all outstanding debt service requirements on all outstanding PID Bonds.

The Administrator shall update (and submit to the City Commission for review and approval as part of the next Annual Service Plan Update) the Assessment Roll and corresponding Annual Installments to reflect the reduced Assessments.

#### E. Prepayment of Assessments

The owner of any Assessed Property may pay, at any time, all or any part of an Assessment in accordance with the PID Act. Prepayment Costs, if any, may be paid from a reserve established under the applicable Indenture. If an Annual Installment has been billed, or the Annual Service Plan Update has been approved by the City Commission prior to the Prepayment, the Annual Installment shall be due and payable and shall be credited against the Prepayment.

If an Assessment on an Assessed Property is prepaid in full, with Prepayment Costs, (1) the Administrator shall cause the Assessment to be reduced to zero on said Assessed Property and the Assessment Roll to be revised accordingly; (2) the Administrator shall prepare the revised Assessment Roll and submit such revised Assessment Roll to the City Commission for review and approval as part of the next Annual Service Plan Update; (3) the obligation to pay the Assessment and corresponding Annual Installments shall terminate with respect to said Assessed Property; and (4) the City shall provide the owner with a recordable "Notice of Termination of Assessment."

If an Assessment on an Assessed Property is prepaid in part, with Prepayment Costs: (1) the Administrator shall cause the Assessment to be reduced on said Assessed Property and the

Assessment Roll revised accordingly; (2) the Administrator shall prepare the revised Assessment Roll and submit such revised Assessment Roll to the City Commission for review and approval as part of the next Annual Service Plan Update; and (3) the obligation to pay the Assessment will be reduced to the extent of the Prepayment made.

For purposes of Prepayments, if Improvement Area #1 Bonds are issued, any remaining Improvement Area #1 Reimbursement Obligation shall be subordinated to (i) the Improvement Area #1 Bonds and (ii) any additional PID Bonds secured by a lien on the Improvement Area #1 Assessments issued to refinance all or a portion of the Improvement Area #1 Reimbursement Obligation.

For purposes of Prepayments, if Improvement Area #2 Bonds are issued, any remaining Improvement Area #2 Reimbursement Obligation shall be subordinated to (i) the Improvement Area #2 Bonds and (ii) any additional PID Bonds secured by a lien on the Improvement Area #2 Assessments issued to refinance all or a portion of the Improvement Area #2 Reimbursement Obligation.

## F. Payment of Assessment in Annual Installments

Assessments that are not paid in full shall be due and payable in Annual Installments. **Exhibit F-2** shows the estimated Improvement Area #1 Annual Installments. **Exhibit G-3** shows the estimated Improvement Area #2 Annual Installments. Annual Installments are subject to adjustment in each Annual Service Plan Update.

Prior to the recording of a final subdivision plat, if any Parcel shown on the Assessment Roll is assigned multiple tax parcel identification numbers for billing and collection purposes, the Annual Installment shall be allocated pro rata based on the acreage of the property, not including any Non-Benefited Property, as shown by the Ellis Central Appraisal District for each tax parcel identification number.

The Administrator shall prepare and submit to the City Commission for its review and approval an Annual Service Plan Update to allow for the billing and collection of Annual Installments. Each Annual Service Plan Update shall include an updated Assessment Roll and updated calculations of Annual Installments. The Annual Collection Costs for a given Assessment shall be paid by the owner of each Parcel pro rata based on the ratio of the amount of outstanding Assessment remaining on the Parcel to the total outstanding Assessment. Annual Installments shall be reduced by any credits applied under an applicable Indenture, such as capitalized interest, interest earnings on account balances, and any other funds available to the Trustee for such purposes. Annual Installments shall be collected by the City in the same manner and at the same time as ad valorem taxes. Annual Installments shall be subject to the penalties, procedures, and foreclosure sale in case of delinquencies as set forth in the PID Act and in the same manner as ad

valorem taxes due and owing to the City. The City Commission may provide for other means of collecting Annual Installments. Assessments shall have the lien priority specified in the PID Act.

Sales of the Assessed Property for nonpayment of Annual Installments shall be subject to the lien for the remaining unpaid Annual Installments against the Assessed Property, and the Assessed Property may again be sold at a judicial foreclosure sale if the purchaser fails to timely pay any of the remaining unpaid Annual Installments as they become due and payable.

The City reserves the right to refund PID Bonds in accordance with applicable law, including the PID Act. In the event of a refunding, the City's Financial Advisor shall recalculate the principal and interest on such PID Bonds so that total Annual Installments will be sufficient to pay the refunding bonds, and the refunding bonds shall constitute "PID Bonds."

Each Annual Installment of an Assessment, including interest on the unpaid principal of the Assessment, shall be updated annually. Each Annual Installment shall be due when billed and shall be delinquent if not paid prior to February 1 of the following year. The initial Annual Installments of the Improvement Area #1 Assessments were due when billed and were delinquent if not paid prior to February 1, 2025. The initial Annual Installments of the Improvement Area #2 Assessments shall be due when billed and shall be delinquent if not paid prior to February 1, 2026.

Failure of an owner of an Assessed Property to receive an invoice for an Annual Installment shall not relieve said owner of the responsibility for payment of the Assessment. Assessments, or Annual Installments thereof, that are delinquent shall incur Delinquent Collection Costs. The City may provide for other means of collecting the Annual Installments to the extent permitted by the PID Act, or other applicable law.

## G. Prepayment as a Result of an Eminent Domain Proceeding or Taking

Subject to applicable law, if any portion of any Parcel of Assessed Property is taken from an owner as a result of eminent domain proceedings or if a transfer of any portion of any Parcel of Assessed Property is made to an entity with the authority to condemn all or a portion of the Assessed Property in lieu of or as a part of an eminent domain proceeding (a "Taking"), the portion of the Assessed Property that was taken or transferred (the "Taken Property") shall be reclassified as Non-Benefited Property.

For the Assessed Property that is subject to the Taking as described in the preceding paragraph, the Assessment that was levied against the Assessed Property (when it was included in the Taken Property) prior to the Taking shall remain in force against the remaining Assessed Property (the Assessed Property less the Taken Property) (the "Retained Property"), following the reclassification of the Taken Property as Non-Benefited Property, subject to an adjustment of the Assessment applicable to the Retained Property after any required Prepayment as set forth

below. The owner of the Retained Property will remain liable to pay in Annual Installments, or payable as otherwise provided by this 2025 A&R Service and Assessment Plan, as updated, or the PID Act, the Assessment that remains due on the Retained Property, subject to an adjustment in the Assessment applicable to the Retained Property after any required Prepayment as set forth below. Notwithstanding the foregoing, if the Assessment that remains due on the Retained Property exceeds the applicable Maximum Assessment, the owner of the Retained Property will be required to make a Prepayment in an amount necessary to ensure that the Assessment against the Retained Property does not exceed such Maximum Assessment, in which case the Assessment applicable to the Retained Property will be reduced by the amount of the partial Prepayment. If the City receives all or a portion of the eminent domain proceeds (or payment made in an agreed sale in lieu of condemnation), such amount shall be credited against the amount of prepayment, with any remainder credited against the Assessment on the Retained Property.

In all instances the Assessment remaining on the Retained Property shall not exceed the applicable Maximum Assessment.

By way of illustration, if an owner owns 100 acres of Assessed Property subject to a \$100 Assessment and 10 acres is taken through a Taking, the 10 acres of Taken Property shall be reclassified as Non-Benefited Property and the remaining 90 acres of Retained Property shall be subject to the \$100 Assessment (provided that this \$100 Assessment does not exceed the Maximum Assessment on the Retained Property). If the Administrator determines that the \$100 Assessment reallocated to the Retained Property would exceed the Maximum Assessment, as applicable, on the Retained Property by \$10, then the owner shall be required to pay \$10 as a Prepayment of the Assessment against the Retained Property and the Assessment on the Retained Property shall be adjusted to be \$90.

Notwithstanding the previous paragraphs in this subsection, if the owner of the Retained Property notifies the City and the Administrator that the Taking prevents the Retained Property from being developed for any use which could support the Estimated Buildout Value requirement, the owner shall, upon receipt of the compensation for the Taken Property, be required to prepay the amount of the Assessment required to buy down the outstanding Assessment to the applicable Maximum Assessment on the Retained Property to support the Estimated Buildout Value requirement. Said owner will remain liable to pay the Annual Installments on both the Taken Property and the Retained Property until such time that such Assessment has been prepaid in full.

Notwithstanding the previous paragraphs in this subsection, the Assessments shall never be reduced to an amount less than the amount required to pay all outstanding debt service requirements on all outstanding PID Bonds.

## SECTION VII: ASSESSMENT ROLL

The Improvement Area #1 Assessment Roll is attached as **Exhibit F-1**. The Administrator shall prepare and submit to the City Commission for review and approval proposed revisions to the Improvement Area #1 Assessment Roll and Improvement Area #1 Annual Installments for each Parcel as part of each Annual Service Plan Update.

The Improvement Area #2 Assessment Roll is attached as **Exhibit G-1** and the Improvement Area #2 Assessment Roll by block and lot is attached as **Exhibit G-2**. The Administrator shall prepare and submit to the City Commission for review and approval proposed revisions to the Improvement Area #2 Assessment Roll and Improvement Area #2 Annual Installments for each Parcel as part of each Annual Service Plan Update.

## SECTION VIII: ADDITIONAL PROVISIONS

#### A. Calculation Errors

If the owner of a Parcel claims that an error has been made in any calculation required by this 2025 A&R Service and Assessment Plan, including, but not limited to, any calculation made as part of any Annual Service Plan Update, the owner's sole and exclusive remedy shall be to submit a written notice of error to the Administrator by December 1st of the year following City Commission's approval of the calculation. Otherwise, the owner shall be deemed to have unconditionally approved and accepted the calculation. The Administrator shall provide a written response to the City Commission and the owner not later than 30 days of such receipt of a written notice of error by the Administrator. The City Commission shall consider the owner's notice of error and the Administrator's response at a public meeting, and not later than 30 days after closing such meeting, the City Commission shall make a final determination as to whether an error has been made. If the City Commission determines that an error has been made, the City Commission shall take such corrective action as is authorized by the PID Act, this 2025 A&R Service and Assessment Plan, the applicable Assessment Ordinance, the applicable Indenture, or as otherwise authorized by the discretionary power of the City Commission. The determination by the City Commission as to whether an error has been made, and any corrective action taken by the City Commission, shall be final and binding on the owner and the Administrator.

## **B.** Amendments

Amendments to this 2025 A&R Service and Assessment Plan must be made by the City Commission in accordance with the PID Act. To the extent permitted by the PID Act, this 2025 A&R Service and Assessment Plan may be amended without notice to owners of the Assessed Property: (1) to correct mistakes and clerical errors; (2) to clarify ambiguities; and (3) to provide

procedures to collect Assessments, Annual Installments, and other charges imposed by this 2025 A&R Service and Assessment Plan.

## C. Administration and Interpretation

The Administrator shall: (1) perform the obligations of the Administrator as set forth in this 2025 A&R Service and Assessment Plan; (2) administer the District for and on behalf of and at the direction of the City Commission; and (3) interpret the provisions of this 2025 A&R Service and Assessment Plan. Interpretations of this 2025 A&R Service and Assessment Plan by the Administrator shall be in writing and shall be appealable to the City Commission by owners of Assessed Property adversely affected by the interpretation. Appeals shall be decided by the City Commission after holding a public meeting at which all interested parties have an opportunity to be heard. Decisions by the City Commission shall be final and binding on the owners of Assessed Property and developers and their successors and assigns.

## D. Form of Buyer Disclosure; Filing Requirements

Per Section 5.014 of the Texas Property Code, as amended, this 2025 A&R Service and Assessment Plan, and any future Annual Service Plan Updates, shall include a form of the buyer disclosures for the District. The buyer disclosures are attached hereto as **Appendix B.** Within seven days of approval by the City Commission, the City shall file and record in the real property records of the County the executed ordinance approving this 2025 A&R Service and Assessment Plan, or any future Annual Service Plan Updates. The executed ordinance, including any attachments, approving this 2025 A&R Service and Assessment Plan or any future Annual Service Plan Updates shall be filed and recorded in their entirety.

## E. Severability

If any provision of this 2025 A&R Service and Assessment Plan is determined by a governmental agency or court to be unenforceable, the unenforceable provision shall be deleted and, to the maximum extent possible, shall be rewritten to be enforceable. Every effort shall be made to enforce the remaining provisions.

### **ENNIS CITY COMMISSION**

### **AGENDA SUMMARY FORM**

**To:** City Commission

**Subject:** Discuss and consider approval of a Resolution authorizing the Mayor to execute

two (2) Supplements to the Agreement for Street Lighting Services by and between Oncor Electric Delivery Company LLC and the City of Ennis, dated December 03, 2003, to provide fifteen (15) streetlights to Prairie View Phase 3A

and eighteen (18) streetlights to Prairie View Phase 3B.

Meeting: ENNIS CITY COMMISSION - 05 Aug 2025

**Department:** Public Works

Staff Contact: Ed Green, Public Works Director

### **BACKGROUND INFORMATION:**

The adopted Unified Development Ordinance requires street appurtenances as required by the City's Infrastructure Design Standards, including streetlights, street signs, signals, and pavement markings. City policies require developers to contract with Oncor to provide street lighting on roadways that are to be accepted and maintained by the City.

The attached original agreement, dated 2003, has been routinely amended as streetlights are added to City-maintained infrastructure-either through developer-added roadways or City projects. Developers install the underground conduit and street light pole foundations to Oncor specifications and at spacing as required by City design standards.

Oncor furnishes and installs the streetlight circuit conductors, poles, and fixtures, and is responsible for operating and maintaining each streetlight at a fixed monthly cost of approximately \$14.00 per month.

### Memorandum of Understanding For the Establishment of the NWCG Wildland Firefighter Standard Between

Texas A&M Forest Service And

Fire Department/ESD

This Memorandum of Understanding ("MOU") is by and between the \_\_\_\_\_\_ Fire Department ("Cooperator") and the Texas A&M Forest Service, an agency of the state of Texas and a member of The Texas A&M University System ("AGENCY").

### **Definitions**

- Director: The Director of AGENCY.
- South Central Forest Fire Compact: A compact between TX, OK, LA, and MS, established by Federal Law and ratified by the respective state legislatures that provides for sharing of each state's wildland fire suppression personnel and equipment.
- National Wildfire Coordinating Group ("NWCG"): A consortium of Federal and state wildland fire agencies that includes the TFS which establishes the National firefighter qualification standard.
- Incident Management Teams ("IMTs"): A qualified group of emergency responders specifically trained and qualified by virtue of training and experience to manage wildfire and other incidents.
- Qualification Board: a select group of individuals qualified to review the training and experience records of wildland fire personnel trainees and determine the qualifications attained.
- PMS 310-1: The publication of the NWCG that contains the minimum requirements for wildland fire positions.
- PMS 901-1: The publication of the NWCG that establishes standards for all aspects of NWCG training course management and delivery.
- PPE: Personal Protective Equipment.
- Texas A&M Forest Service Wildland Fire and Incident Management Team Training & Qualifications Manual ("Training & Qualifications Manual"): Publication that establishes standards for training and qualifications for AGENCY and Cooperators.

### **Authorities**

- AGENCY is the state signatory to the NWCG under Texas Education Code 88.120 and supports that standard for state wildland firefighters and Fire Departments in Texas.
- AGENCY may cooperate with the United States Forest Service and other Federal agencies under Texas Education Code 88.106 (a);
- AGENCY is responsible for wildland fire training within the State under Texas Education Code 88.120;
- AGENCY has responsibility to establish Incident Management Teams under Texas Education Code 88.122;
- Agency further provides and receives support through the South Central States Forest Fire Compact in suppression of wildfires as requested by member states under Texas Education Code 88.112 and 88.116.

### **Purpose**

This MOU is entered into with the intent of establishing the NWCG Training and Qualification Standards contained in the current or latest version of PMS 310-1 as the wildland qualification standard for the Cooperator. The fire potential and the amount of property within the area protected by the cooperator fosters the need to have local fire agency personnel qualified to a higher wildland fire standard to assure that adequate well trained and physically prepared fire personnel can be deployed to meet a local and state wildfire response need. This MOU could represent both a cost saving and public safety measure for the people of Texas. Benefits include increasing the number of wildland fire personnel in the state, increasing the capability of the cooperator to more effectively deal with wildfire response, and reduce loss of life and property at the local level. The MOU could further enhance the State's ability to assist other state and Federal agencies on wildfires and all risk incidents by increasing the number of NWCG fully qualified wildfire personnel to assist outside the state on incidents of National and Regional significance.

### Responsibilities under the MOU

### **AGENCY shall:**

- Conduct audits of training records, task books, and qualifications at the discretion of the AGENCY.
- Status qualified individuals/resources within the Interagency Resource Ordering Capability (IROC).
