Hello Everyone,

I've been notified that at the November Commission meeting the 2 applications we have been working on have been approved for distribution and comments. Thus development along with cancellation of the December Commission meeting makes our subcommittee meeting unnecessary.

Unless there is an objection from other members, I'm recommending cancellation of the December subcommittee meeting.

I'm also recommending that the Commission revisit the charter if this subcommittee to determine its future. There is work required to other processes (sub-division for one) that may require specialized resources to improve.

With that being said, I'm officially notifying the commission that I'll be resigning from my consulting role. I want to thank all the subcommittee members, the City Hall staff, and the P&Z Chair for their support in bringing the pre-application checklist and 2 new and improved application documents/processes for implementation.

My best wishes to all for a good holiday.

Regards,

Bill
