To Whom It May Concern,

I am writing in support of the proposed food truck permit for El Sol Deli on Roosevelt Drive in Derby, Connecticut.

As a former member of the Tax Board and current member of the Parks and Recreation Board, I understand the importance of supporting local businesses that contribute positively to the community and local economy. I believe El Sol Deli would be a welcomed addition to the area and would provide a benefit to residents, visitors, and nearby businesses.

I am aware there has been hesitation regarding this particular business opening at this location. However, it is important to recognize that there was previously a food truck operating at this same site successfully for approximately three years without issue. That prior success demonstrates that this location is suitable for this type of business and that there is community demand and support for it.

Local food businesses help create activity, provide convenient dining options, and contribute to the character and vitality of the community. Supporting small business owners who are willing to invest in Derby should be viewed as a positive opportunity for continued growth and engagement within the area.

Based on my experience serving the community, I believe approving this permit would be beneficial and would continue the successful use of this location in a productive and community-oriented manner.

Thank you for your time and consideration.

Sincerely,

Jose Rivera
Former Tax Board Member
Current Parks and Recreation Board Member

To Whom It May Concern,

I am writing in strong support of the new business, El Sol, opening in the City of Derby, Connecticut. It is extremely disappointing to see this business being delayed or denied for what appears to be no valid reason.

As a small business owner in Derby for the past 12 years, I understand firsthand how important local businesses are to the growth, economy, and overall atmosphere of our city. Derby desperately needs more small businesses, more taxpayers, and more quality places for residents and visitors to enjoy. Frankly, there are very few good dining options in Derby, let alone restaurants that offer different cuisines and cultural experiences.

A new business like El Sol should be welcomed, encouraged, and supported — not blocked. Small businesses invest in the community, create jobs, improve local commerce, and help bring life back into a city that needs economic growth. Turning away a new business owner who is willing to invest in Derby sends the wrong message to future entrepreneurs considering our city.

I strongly urge whoever is responsible for preventing this business from opening to reconsider their decision. The City of Derby should be supporting responsible small business owners, not discouraging them.

Thank you for your time and consideration.

Sincerely,

Mario Durante

Sent from my iPhone to whom it may concern. I am all for the food truck. I think it would be great for our community. Sorry to see them go but I want to welcome the new owners. I am all for it....

Sincerely.
Theresa Croteau

To Whom It May Concern,

I am writing in strong support of El Sol Deli food truck located on Roosevelt Drive in Derby, Connecticut.

I understand there has been some difficulty or hesitation regarding allowing this business to operate in the area. I respectfully encourage you to reconsider that position. Over the past several years, Derby has faced economic and community challenges, and welcoming small businesses like this can be a meaningful step toward continued local growth and revitalization.

This location has already been home to Larry's Landing food truck for approximately three years, which operated successfully and received positive reviews and consistent community support during that time. In addition, El Sol Deli has established itself through other locations within Connecticut and has built a strong reputation, with many positive reviews and support from surrounding businesses and customers.

Based on this track record, it is clear this is the type of established small business that can contribute positively to the local economy, bring consistent activity to the area, and serve residents who appreciate having accessible food options nearby.

I believe supporting businesses like El Sol Deli is an opportunity for Derby to continue moving in a positive direction by encouraging entrepreneurship and community engagement.

Thank you for your time and consideration.

Sincerely,
Bradley Reese

Re: **Litzamara Rangel**

To Whom It May Concern:

This letter is to confirm that Litzamara Rangel and the Rangel family, through their businesses, have been tenants in good standing at our property located at 1400 West Broad Street in Stratford since August of 2019. The Rangels currently own two separate businesses in the building, *El Sol Deli* and *Blendz*. Both establishments are very well-kept, and rent has always been paid in a timely manner. In short, they are excellent tenants that tend to improve the overall appearance and condition of the premises.

If there is any further information I could provide, please do not hesitate to contact me by phone or email.

Very truly yours,

Del Sol letter

To whom it may concern,

This letter is to express my support of El Sol Deli opening a food truck at 285 Roosevelt Drive. As a resident of the house adjacent to the lot where the food truck will be located, I look forward to them being a part of this local community. I'm excited to sample the food they will be selling.

Thank you for your attention in this matter,

Christian Storey
