FUNDING FOR THE INDEPENDENT CONTRACTOR FOR THIRD PARTY INSPECTIONS OF WORK PERFORMED UNDER THE EMMETT AVENUE SANITARY SEWER REPLACEMENT PROJECT.

DISCUSSION/POSSIBLE ACTION

Mr. McLiverty said this item will be acted on by the Infrastructure Committee first and then WPCA. He noted that this is the funding for the independent contractor to conduct third party inspections of the work performed under the Emmett Avenue sanitary sewer replacement project. Mr. McLiverty asked Robert Tedeschi from Weston & Sampson to explain what this work would entail.

Mr. Tedeschi said the scope of the work entails having a full time inspector on site to inspect the installation of the pipe, recording the location of all the manholes and other important pieces of the infrastructure that will be buried. He said GPS will then be used and then recorded on Auto CAD for GIS. Mr. McLiverty noted that this will be the first time to have GIS for the laterals and main and we will have exact locations of items - this will protect the City and the property owner. Mr. McLiverty asked if there were any questions regarding the third party inspector.

Mr. Curtis said he has a couple of suggestions. In addition to looking at the laterals he suggested that pictures be taken of the laterals. Mr. McLiverty said that would be included with the third party contractor services. Mr. Curtis also suggested that we have compaction ratings for rates and lifts, which is very important. He noted that having the GIS is the first thing that we have done to move forward. Mr. Tedeschi said the compaction ratings are also included in the contract. Mr. Miani asked who is doing the connections to the laterals. Mr. McLiverty said we're going to replace the main and the laterals from the main to the curb line and the company that we're awarding the bid will connect at the curb line. Mr. DiCenso said since the homeowner owns from the house to the sewer line at the curb do we need permission to cut the pipe. Mr. McLiverty deferred to Corporation Counsel. Atty. Teodosio said we notify the homeowner, we don't ask permission. There were no further questions.
